

Opportunities to practise maths skills at home

- Read numbers on buses, cars, in the shops etc.
- Play board games
- Use money to go shopping - what costs more/less?
- Count footsteps/stairs - who has the longest/shortest strides?
- Talk about the date, what day/month it is throughout the year
- Tell the time on clocks, watches, tablets, phones etc.
- Estimate numbers of objects e.g. How many spoons in the drawer/apples in a bag etc.
- Go on a shape hunt around the house - 2D and 3D
- Have a height chart and plot your growth
- How old are people in your family - is the oldest the tallest and the youngest the shortest?
- Fill different containers - which holds the most/the least?
- Weigh yourself - find something heavier/lighter
- Read scales on measuring jugs/weighing scales
